

WEBINARS: Data centers 2.0 – Trends, needs and alternative technologies for cooling the next-generation of data centers!

Swegon Air Academy is pleased to invite you to a series of technical webinars on data center technology on 11th November.

13:00 - 14:00

Webinar #4: TRENDS AND LEGISLATION IN THE DATA CENTER INDUSTRY - WORLDWIDE AND IN SCANDINAVIA with Pär Åberg, Business and Development Manager for the Data Center at Swegon, Sweden

- General picture of a data center and how big is the market
- Trends in data center industry worldwide and in Scandinavia in general
- Relevant standards/legislation and EU Code of Conduct for data centers

14:00 - 15:00

Webinar #5: THE AIR OF A DATA CENTER with Morgan Ledner, Global Data Center Manager, Volvo IT, Sweden

- From the perspective of a data center provider
- Environmental issues and investments to reduce footprint and energy consumption in data centers
- Practical issues as a part of the reality we face today in data centers

15:30 - 16:30

Webinar #6: EXPERIENCE WITH LIQUID COOLING AND HEAT RE-USE IN DATA CENTERS with Gert Svensson, Deputy Director of the PDC Center for High Performance Computing, Sweden

- Increased power usage at PDC and other computer centers
- Experience from two heat re-use projects
- Overview of liquid cooling

16:30 - 17:30

Webinar #7: DATA CENTER COOLING EVOLUTION - THE HOTTEST WAY TO SAVE ENERGY with Lucio Bustaffa, Product Development Manager for data cooling products and roof-top units at the BlueBox Goup, Italy

- Data center cooling evolution during the years considering needs and rules
- Classification on data center by size and by other characteristic, cooling systems with pros and cons related
- Free cooling, indirect with water (+adiabatic), direct with air (+adiabatic), indirect by air (+adiabatic)

Information: You are invited to register your intention to join the live web-broadcast (webinar) and to receive further information about these webinars. The webinars will subsequently be available to watch offline as a YouTube lecture via a link on the Swegon Air Academy website. These webinars are free but registration is required; a link to join the webinar will be sent to you the day before the webinar. A webinar (or web seminar) is a seminar that is transmitted live via the web, which you can watch on your computer. You will be able to send in written questions to the speaker from your computer.
