

# Cold Climate HVAC 2018

The 9th International Cold Climate Conference  
Sustainable new and renovated  
buildings in cold climates

**Kiruna – Sweden 12-15, March 2018**

**Submit your abstract before 1 May 2017**

The conference invite submissions from academia, industry and municipalities presenting novel research results in all aspects of technologies and processes to achieve sustainable buildings and districts with a good indoor environmental quality and a minimum use of resources and energy. The conference covers technical, economic and social aspects of buildings and HVAC systems in new and renovated buildings and will have both theoretical and practical tracks.

**Abstract instructions and submission:** <http://www.cchvac2018.se>

**Submit your abstract before 1 May 2017!**

Due to the iron ore mining in Kiruna, there will be extensive new development during the coming decade to form one of the most sustainable Arctic cities in the world. In connection with the conference there will be opportunities to experience many highly interesting local attractions such as Icehotel Jukkasjärvi, Esrange Space Center, Northern light and Sami culture.

**Take the opportunity to experience the process of constructing one of the most sustainable Arctic areas in the world!**

**We look forward to meeting you in Kiruna!**

**Dennis Johansson, Chair**, Associate Professor, Head of Division,  
Building Services, Lund University

**Hans Bagge, Co-Chair**, Senior Lecturer,  
Building Physics, Lund University

**Åsa Wahlström, Senior Advisor**, Professor  
Building Services, Lund University
